Work Experience

Technical Support Engineer
@Informatica
Jul 2020 - Present

Working with the Data as a Service team, and my task involved validating and verifying postal addresses, email addresses, and phone numbers. During this period, I interacted with clients and data analysts to solve real-time problems.

Other than that I speak with clients every day, assist with technical questions, help them with KB Articles if needed, respond to questions on the phone, assist with rising cases, schedule working sessions with the product engineers, and give the finest support.

Senior Engineer
@F1 info solutions & services pvt ltd
Oct 2018 - May 2019

F1 Info Solutions is owned by Flipkart, and I was a part of the refurbishing and servicing team, and my primary responsibility was to restore and service electronic devices such as laptops and smartphones, which are resold on Flipkart.
